The Champion Series systems from Lifeline Amplification Systems mix digital technology and unique, user-friendly features to provide a helpful communication tool. With superior sound and unmatched features including user-selectable 57-channel frequency capability, the Champion Series gives you the quality, usefulness and peace-of-mind you have come to expect from Lifeline Amplification Systems.

Flexibility

- Lapel, collar and headset microphones available
- Choose between walkman style or miniature headsets
- Telecoil neck loop available
- Plug any standard line level source (CD player, tape deck, television, VCR, etc.) into the transmitter for multi-media presentations
- Many other accessories available

Crystal Clear Sound

- Enhanced digital circuitry provides a superior signal to noise ratio for maximum voice clarity

Highly Skilled Audio Professionals

- Lifeline can assist with your classroom amplification and customer support needs.
- No automated phone service, talk directly to Lifeline customer services representatives

Field-replaceable Parts

- Collar and lapel microphones are detachable from microphone cable for easy and cost-effective replacement
- Headsets are detachable from receiver

Simplified Recharging

- Rechargeable batteries, included with each system, remain in the unit when recharging
- Dual charger charges the transmitter and receiver at the same time using only one electrical wall outlet
- A fail-safe switch allows the use, and prevents the accidental charging, of alkaline batteries
- LCD display indicates battery charge level

THE CHAMPION TRANSMITTER

- Available in 72mhz or 216mhz
- User-selectable 57-channel frequency capability
- Microphone cable detaches from transmitter
- Lapel microphone standard with system
- Features an LCD display for easy reference
- Channel lock out feature ensures that you are only transmitting on the frequencies that you select
- Microphone sensitivity switch allows different settings for various microphones
- Mute control located on top of unit for visual reference and ease of use
- Heavy-duty spring-loaded belt clip

THE CHAMPION RECEIVER

- Available in 72mhz or 216mhz
- User-selectable 57-channel frequency capability
- Controls located behind a lockable faceplate to eliminate accidental operation by student
- Standard headphone jack for use with any headset
- "Program Mode" locks out unwanted frequencies
- Heavy-duty spring-loaded belt clip

THE CHAMPION SERIES INCLUDES

- Wireless Transmitter (72mhz or 216mhz)
- Lapel Microphone (includes microphone cord)
- Wireless Receiver
- Walkman Style Headset
- Rechargeable Batteries
- Dual Charger

The Champion Series system comes in 216mhz or 72mhz depending on your frequency preference. Order a complete system for only \$995.*
